

Why Ride or Walk?

In addition to a great event, participants will meet our students. Javier learned English at the Adult Learning Center.

I am eternally grateful for the advice and lessons learned at the Adult Learning Center. It was valuable to my success. There were times I thought I could never speak the English language. My teachers would say to me "With perseverance you can do anything in America, just have patience.:" After a few semesters at the Adult Learning Center, I felt confident to attend college. I enrolled at a community college and then graduated from Rivier College in 1992. Now I am a Registered Nurse.
